

Dr. Morris B. C. Gottlieb, M.D., F.A.C.S.

Specializing in:
Pediatric and Adult ENT, Tonsils and Adenoids, Hearing Loss, Adult and Pediatric Allergy, Sinus Problems, Snoring and Sleep Apnea and Thyroid conditions

Morris B. C. Gottlieb graduated with a B.S. in Molecular Biophysics and Biochemistry from Yale University. He received his medical training at The Johns Hopkins University School of Medicine, during which time he did cancer research under the direction of one of the most prominent researchers in the field. He completed his residency at Duke University Medical School, one of

the best ENT programs and one of the largest tertiary care centers in the nation. He is board certified in Otolaryngology – Head and Neck Surgery and is a Fellow of the American College of Surgeons, a distinction that fewer than 1% of all surgeons hold. He serves on two national committees of the American Academy of Otolaryngology – Head and Neck Surgery and remains active in both the Texas and Collin County Medical Associations. He recently served as the Chief of Surgery at Richardson Regional Medical Center and serves on the Executive Board of the Hospital. Dr. Gottlieb has published numerous papers in peer-reviewed medical and scientific journals. His vast education, knowledge, and experience allow him to provide his patients with superior health care. Dr. Gottlieb is also known for his empathic bedside manner and for tailoring care to address the individual needs of each patient.

C. Spencer Daily III, M.S., CCC-A

Specializing in:
Hearing Problems, Ringing in Ears and Customized Hearing Aids (Evaluation, Fitting and Counseling)

C. Spencer Daily earned his Masters in Audiology from the University of North Texas and his B.S. in Communication Disorders from Abilene Christian University. Spencer is licensed in both Texas and Arkansas. He holds his Certificate of Clinical Competency from the American Speech, Language and Hearing Association and he is a Fellow of the American Academy of Audiology.

Prior to joining North Dallas Ear, Nose, and Throat, P.A., Spencer served as an adjunct professor for Vestibular Diagnostics and Interpretation (UAMS). He has participated in research endeavors, resulting in various publications regarding hearing impairment. Having worked from Hearing Aid manufactures to private clinic settings, Spencer’s diverse body of experience allows him to provide superior health care for the hearing impaired.

About Us:
